PROFESSIONAL SUMMARY

Results-driven MIS professional and full-stack systems builder with 4+ years of cross-functional experience spanning data analytics, software development, DevOps, digital marketing, and customer service leadership. Currently serving as Management Information System (MIS) at MAW Vriddhi, managing end-to-end sales intelligence for Nammi and SERES electric vehicle product lines and independently designing and developing the company's ERP sales management platform. Proven ability to build full data pipelines and software systems from the ground up, design executive dashboards, and translate analytics into actionable sales strategies. Strong background in high-volume customer support, conflict resolution, and team leadership. Adept at working across technical and business functions to drive measurable performance improvements.

PROFESSIONAL EXPERIENCE

Management Information System (MIS) | [MAW Vriddhi](#)

2026 – Present

- Independently designed and built **MAW Vriddhi ERP**, a full-stack sales management web application (Vite, React, Supabase), live at maw-vriddhi.vercel.app, covering daily reporting with MTD/YTD summary tracking and live dealer-level performance monitoring across three brand matrices.
- Oversee end-to-end MIS operations for Nammi and SERES electric vehicle product lines, tracking the full customer journey from initial enquiry through booking to retail conversion.
- Design and maintain interactive sales dashboards that provide real-time visibility into KPIs, enquiry volumes, booking pipelines, and retail performance for senior leadership.
- Develop and manage data pipelines to consolidate daily sales and enquiry data from multiple sources, ensuring accuracy and timeliness of reporting.
- Produce daily review reports analyzing every enquiry touchpoint, identifying bottlenecks, drop-off patterns, and opportunities to improve conversion rates.
- Formulate and present strategic sales improvement plans leveraging data insights, contributing to measurable growth in lead-to-booking and booking-to-retail ratios.
- Collaborate cross-functionally with sales, marketing, and operations teams to align MIS reporting and the in-house ERP system with business objectives and product launch timelines.
- Automate recurring reporting workflows to reduce manual effort and improve operational efficiency across the MIS function.

MIS Officer | [Wimslab](#)

2024 – 2026 (2 years)

- Managed and maintained the organization's MIS infrastructure, ensuring accurate and timely reporting across all business units.
- Designed and developed interactive dashboards and automated reports to provide management with real-time visibility into operational KPIs and performance metrics.
- Built and maintained data pipelines to consolidate information from multiple internal systems, improving data accuracy and reducing manual reporting effort.
- Conducted in-depth data analysis to identify operational inefficiencies, presenting findings and actionable recommendations to senior stakeholders.
- Collaborated with cross-functional teams including sales, finance, and operations to align MIS outputs with departmental objectives and strategic goals.
- Developed and standardized data collection processes and reporting templates, improving consistency and reliability of business intelligence outputs.
- Supported senior management decision-making by producing ad-hoc analytical reports and trend analyses on key business performance indicators.

Lead Customer Service Representative | Foodmandu

2023 – 2024

- Managed 200+ customer interactions daily across calls, chats, and emails in a high-volume food delivery environment, consistently exceeding satisfaction and resolution targets.
- Leveraged data analysis and Excel expertise to identify process inefficiencies, implementing improvements that boosted customer satisfaction scores.
- Redesigned QA evaluation strategy, introducing data-backed performance metrics that improved team accountability and quality of service delivery.
- Mentored and guided a team of customer service representatives, fostering a collaborative, high-performing work culture.

SEO Specialist & Digital Marketing Intern | Mindrisers Institute of Technology

2024

- Achieved top Google search ranking for the 'Flutter Course' keyword within 5 days of blog publication, demonstrating strong on-page SEO and content strategy skills.
- Developed interactive website themes and content strategies aligned with brand objectives, improving user engagement and organic traffic.
- Secured the internship position prior to course completion, demonstrating initiative and applied learning capability.
- Demonstrated leadership potential by mentoring junior peers and nearly assuming a teaching assistant role during coursework.

Customer Service Representative | Bhojdeals

2021 – 2022

- Resolved complex customer inquiries and complaints with empathy and professionalism, ensuring timely and positive resolutions.
- De-escalated challenging customer situations, consistently turning negative experiences into positive outcomes that retained customer loyalty.
- Supported team lead in managing and motivating a group of customer service representatives, contributing to a positive and collaborative work environment.
